Forecast for Wednesday 11 Nov 2020

Weather: Mainly cloudy skies by day mixed with scattered showers, these generally focused across western ranges. Cloud thickening and lowering from the west late afternoon, with a band of occasionally heavy rain crossing the area early to mid-evening, which in turn clears east towards midnight, allowing scattered showers to return.

Chance of cloud free mountain/hill tops above 600m: 60% by day with bases broken to overcast from 500-800m, lowering 20% for a time during the evening.

Visibility: Good sporadically lowering to a handful of kilometres in showers, then more generally in the evening rain.
